

Aryan™ Kakashi

FrontEnd Developer

Web and Game
Development

ABOUT ME

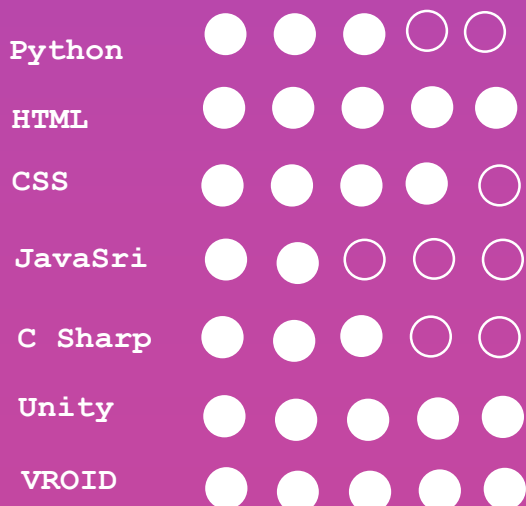

Hello My name is Aryan. I am 14 years old and I love to code, Study and make new things! I like to explore things, Well that's my Hobby. Beside coding I can draw pretty well. I get inspirations from games. I think as per my point of view, If I could play games why not to make them! About 4 years ago I started learning coding. I am a Game Developer, Web Developer and a Skillful Artist, Basically I am a Cool Guy.

LANGUAGES

EDUCATION

High School (2016 - Till Date)
JSPM- Prodigy Public School

Currently completing High School

PROJECTS

Dragon Realms

Founder

Dragon Realms is a Software development organization founded by me in 2020. We are currently working on MCPY Version and I would to contribute to my Organisation throughout the carrier. Here link to Dragon Realms: [Dragon Realms \(github.com\)](#)

Many Other Small Projects

Leading Member

These are some projects I would work on in free time. These help me to find new problems and work on it and learn something new from it. You can find them from my Website's Project Tab: [Dragon Realms | Projects \(ravanger101.github.io\)](#)

MY SKILLS

- Python- It is the first coding language that I have learned in 2020. Before that I was learning Scratch Block Coding. I can code in Pytho pretty well. There is a Python game I have been working on : [Minecraft PY Version 1.0](#)
- HTML/CSS/Javascript- I have learned HTML in 2020, I even created my first website using only HTML. Later in ending of 2020 I learned CSS and learned how to design and animate Website. And in 2021 May I learned JS for Website UI's and Animations.
- C Sharp/ Unity- I wanted to make Games, During starting of 2022 I learned Unity and gradually started to write code in C sharp. C sharp help me make games of my choices!
- VROID- I am Big fan of Anime and Manga, I Design new Anime Characters in VROID and keep them my collection. I Sometimes use VROID Models for my Games which would help me alot!

HOBBIES

Coding Drawing Studying Gaming
